

Annie's Project

Empowering Women's Role on the Farm

Are you looking for a way to better understand the farming operation and be a better business partner? Whether you work on your farm full-time, have a career off the farm or a combination of both, you are an important partner in your family's business.

If you're a woman on the farm, please join us for Annie's Project, discussion-based workshops bringing women together to learn first-hand from experts. There's plenty of time for sharing and connecting with your fellow participants. It's a relaxed, fun and dynamic way to learn, grow and meet other farm women, just like you.
